

**Informações do Produto**

Reference No.: DMRS-CL10W007B |
DMRS-CL20W008B | DMRS-CL28W009B

Power: 10W/20W/28W

Light Output: 900lm / 1600lm / 2400lm

Rated Voltage: AC 180–265V AC / 50–60Hz

Color Temperature (CCT): 3000K–5000K

Beam Angle: 20° / 40°

IP: 44

CRI: Ra ≥ 90

Colors Finish: White / Black

Material: Aluminum / PC

Certifications: CE & RoHS

**Product Description**

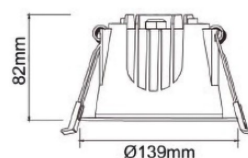

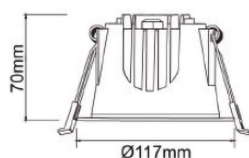

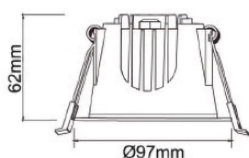

Featuring modern design and advanced technology, the Wide LED Downlight provides homogeneous and soft illumination across larger areas, eliminating harsh glare and shadows.

An elegant, efficient, and versatile solution suitable for residential or light commercial environments.

**IP44**

*CE marking indicates that the product complies with European Union safety, health, and environmental standards, allowing it to be legally marketed within the European Economic Area.

Finish: White / Black Material: Aluminum / PC Certifications: CE & RoHS								

Warranty Period: 3 years

IP: Indicates the level of protection of a device against dust and water.

CRI: Indicates how a light renders colors.

CCT: Indicates whether the light appears warmer (yellowish) or cooler (whiter/bluer), measured in Kelvin (K).

*CE marking indicates that the product complies with European Union safety, health, and environmental standards, allowing it to be legally marketed within the European Economic Area.
